

SHABBBBAH ATHABIYU

Frontend Developer & UI/UX Designer

Yogyakarta, ID | thabys.fun

shabbahatha86@gmail.com

Creative and detail-oriented Frontend Developer & UI/UX Designer with a passion for building seamless digital experiences. With a strong background in graphic design, I blend aesthetics with functionality to create engaging and user-friendly interfaces. Skilled in React and modern web technologies, I focus on developing high-performance, scalable applications. I thrive in fast-paced environments that embrace innovation and continuous improvement.

EXPERIENCE

REACT DEVELOPER (REMOTE)

Jarivis | Jakarta, ID

OCT 2024 – PRESENT

Developed scalable web applications with React.js, enhancing load speed and performance. Implemented reusable UI components with Chakra UI, improving efficiency across multiple projects. Refactored and optimized legacy codebases, reducing load times by 30%. Worked within Agile teams, contributing to rapid product iterations and enhanced user experiences.

UI/UX DESIGNER (INTERN)

Sevenpion | Yogyakarta, ID

SEP – DES 2024

Gained hands-on experience in UI/UX design by supporting the end-to-end design process of digital products. Contributed to creating intuitive user interfaces through wireframes, prototypes, and design systems using Figma. Conducted user research and usability testing to validate design decisions. Worked closely with developers to align design outcomes with technical implementation, improving team collaboration and output quality.

WEB DEVELOPER (FREELANCE)

Worked independently with clients to design and build responsive, user-centric websites and web applications. Utilized React, Next.js, and Firebase to deliver high-performance solutions. Created wireframes and prototypes in Figma, prioritizing usability and clean design. Managed entire project lifecycles, from concept to deployment, while maintaining strong client communication.

EDUCATION

ASSOCIATE DEGREE IN INFORMATION TECHNOLOGY

Amikom University - GPA 3.7
